1.3 Determination of a Potentially Dangerous Dog

1.3 (02) Following notice to the owner, if the Administrative Authority has probable cause to believe that the dog is potentially dangerous and may pose a threat to public safety, the Administrative Authority shall require one of the following:

A) Quarantine of the dog on the owner's property for a period of ten (10) calendar days.

B) Impound and quarantine the dog to a location as determined by local law enforcement, the Administrative Authority, or his/her designee that provides adequate confinement period for ten (10) calendar days.

The yard or enclosure must be inspected and approved in writing by the Administrative Authority prior to release of the dog.

The owner shall provide a copy of such notice to the Administrative Authority within thirty (30) days after the dog has been released.

H) At least five (5) days before the dog is returned to the premises of the owner, the owner must give written notice to the victim, if the victim lives or normally travels within 500 feet of the owner's premises, stating where the dog will be kept in the future, and the date when the dog shall return to the premises. Additionally, the written order of the Administrative Authority shall be attached to said notice.

I) The owner of the dog shall post one or more signs on the premises at a location(s) approved by the Administrative Authority stating that a potentially dangerous dog resides on the premises. The size, wording, color, number and placement of the signs shall be determined and provided by the Administrative Authority.

1.4 (02) Following owner notification, if law enforcement and/or the Administrative Authority has probable cause and believes the dog to be a dangerous dog and that the animal poses an imminent threat to public safety, law enforcement, the Administrative Authority or his/her designee may take the following action:

A) Impound and quarantine the animal for ten (10) calendar days in an approved location that confines the animal for observation and public safety protection.

B) If a dog has previously been found to be Potentially Dangerous as defined by this ordinance and reoffends by causing an injury to a person or domestic animal on public or private property OR without provocation, chases or approaches a person, domestic animal or a wheeled conveyance upon the streets, sidewalks, or any public or private property, in an apparent attitude of attack, the Administrative Authority may quarantine the dog for ten (10) calendar days at a location determined by the Administrative Authority and once the quarantine period has expired, may have the dog humanely destroyed.
