VARIANCE CRITERIA SUPPLEMENTAL INFORMATION

Cerro Gordo County Zoning Board of Adjustment

[For completion by Variance Applicants Only]

This attachment is intended to supplement the Appeal to the Board of Adjustment Application for requests for variances. This attachment shall be submitted as a part of and attached to the Appeal Application and serve to enable the Board to make fair and equitable decisions. Failure to complete this form in its entirety may result in postponing the request until adequate information is submitted.

The Board of Adjustment shall authorize upon appeal, in specific cases, such variance from the terms of the Ordinance as will not be contrary to the public interest, where owing to special conditions a literal enforcement of the provisions of the Ordinance will result in unnecessary hardship, and so that the spirit of the Ordinance shall be observed and substantial justice done.

The Applicant shall be held responsible to provide adequate evidence that the literal enforcement of the Ordinance will result in unnecessary hardship. "Hardship" as used in connection with the granting of a variance means the property in question cannot be put to a reasonable use if used under the conditions allowed by the provisions of the Ordinance, the plight of the landowner is due to circumstances unique to his property not created by the landowner; and the variance, if granted, will not alter the essential character of the locality.

The Board shall ensure that their decision shall not be contrary to the public interest, that the spirit of the Ordinance shall be observed, and substantial justice done.

Applicant(s) John Skarlis and Eric Ritland
Type of Variance Requested Side Yard (3') & Rear Yard (15')

1. The land in question cannot yield a reasonable use for the following reasons:

Too narrow of a lot to accompany a structure that is built to adhere to the county setbacks required by zoning.

2. What is unique about this property compared to other properties in the vicinity?

The lot is about half the size of the other building lots in the area or block.

3. Explain how the variance will fit in with the character of the area (i.e., size, height, scale, etc.):

It is primarily a "vacation home neighborhood" - so the home will look similar to the other properties in the area, being that many of the other lots are small.

4. The need for the variance cannot be attributed to the present or past property owner for the following reasons:

We did not set or determine the size of the lots. (in this development)

5. The Zoning Ordinance requirements have resulted in a need for a variance for the following reasons:

- ① We are requesting for a ~~3'~~ 3' and the zoning requirement is 6' side yard.
- ② We are requesting a 15' (rear yard) and the zoning requirement is a 30' rear yard.

6. The variance is in accord with the purposes and intent of the Zoning Ordinance and Comprehensive Plan for the following reasons:

7. The variance will not impair the public health, safety and general welfare of the residents of the County for the following reasons:

Because it will still be an acceptable distance from the other homes.

I, John G. Skarlis certify that

all of the above statements are true to the best of my knowledge and belief.
